***Economic Development
Directory***

Spreading wealth throughout our community!

November 2010

As of 2008, African American purchasing power reached \$913 billion and is projected to reach \$1.24 trillion by 2013. Collectively, our community possesses the highest levels of purchasing power among ethnic groups and is maturing into a significant consumer force in the mainstream economy. Even more compelling is that purchases made by black women are the single biggest influence on the growth of African American spending!

The latest census data available¹ shows that African American businesses account for the following:

- Δ 4% of the more than 20.8 million nonfarm businesses in the United States
- Δ .7% of the employment in nonfarm businesses in the United States
- Δ .4% of the receipts from nonfarm businesses in the United States
- Δ 3.2% of African American owned businesses are in the state of New Jersey and account for 3% of receipts earned by African American businesses in the United States
- Δ The following communities in our area have more than 100 African American owned businesses and collectively account for 4% of African American owned businesses in New Jersey and 2% of the receipts:
 - Δ Burlington Township
 - Δ Pennsauken Township
 - Δ Voorhees Township
 - Δ Willingboro Township
- Δ Of the 18 counties in New Jersey with more than 100 African American owned businesses, Burlington County ranks 7th with number of African American owned business and 8th in receipts.

The goal of this economic development directory is to help us achieve the goal of supporting the businesses within our community. If you know of other businesses that should be included in this directory, please forward their contact information to rancocasvalleyal@netscape.net.

Here's to our wealth!
